I like babytalking, popcorn without butter,
And anybody who will pay attention
To these requirements.

I'm an optimistic beauty. Never impolite.
Easy like Saturday, mid-day.
Breezy, chilled-out, dumb girl.

[Chorus]
That's life with me. I know.
Around and around you will go.
But, if I french kiss you
In the broad daylight,
You'll fall in love..oh,oh,oh.
That's life with me. I know.

Well I am pretending to be a free-bouncing lover.
I wear my defensive mask of optimism like a badge.
And ultimately. I am much too lazy to change.
I'm rather conditioned to my life of melodrama.

[Chorus]

That's life with me. that's how it will be, my friend.
A roller coaster ride you won't forget.
I am just a mess. I am just a mess, at best.
I am just a blue-ribbon prize winner till the end.

[Chorus]
