Jay and James roll tape I'm ready to rock..

Here I am
It's Friday night
I'm feelin' good
The time is right
There you come
Right out of the crowd
And all that I can say is

I want you to know
That I can rock you girl so come on lets go
I want you to see
I'm really feelin' you so
If you're feelin' me
I want you to know
That I can rock you baby
With the lights down low
I want you to see
I'm really feelin' you so

If you're feelin' me
Go go

So you think you got it all together
Before you make a move
And get too deep
Don't you know that I can
Love her better?
So give it up, go home
And get some sleep

I must have been
Mistaken for another
You overlooked the fact that I'm your
Older brother
Don't you know the
girl-she wants me
So look on the other direction and go
And get some
