"That's How I Know"

Visit "[That's How I Know](#)" on MotoLyrics.com

My friends, ask me
When it comes to givin' you my heart
How can I be sure?
'Cause they see
How fast we
Filled up all the empty parts in my soul and yours

When I answer it erases thier doubts
'Cause the truth comes out

When I'm miles away
And I still feel your touch
When I make mistakes
When you're in my arms
And no one gives up
When you're in my arms

Baby you're still not close enough
That's how I know it's love
It's love

Just like they are
I'm amazed I found someone made just for me
Oooo your love so far
Tell me I would be a fool not to believe
That I've been given a gift in this life
I must have done something right

Now I know what forever's for
Each day I want you more
