You've got the body to wear
Whatever you want to wear
You've got the mind to understand
I am not a simple man

And you've got the soul to carry me
When I'm dragging my feet
And of course I'm the last to notice now
What's right in front of me

You make the world a better place
A better place to be
You make the world a better place
A better place for me

Through it as we're dying
And I get blinded by what's in between
You know when I'm trying too hard
To make sense of all the things I've seen

'Cause it's all an illusion, it causes confusion
I don't know if I could ever explain
You listen to me anyway
And it helps to ease the pain

You make the world a better place
A better place to be
You make the world a better place
A better place for me

I'm beginning to see what's right in front of me
This is my life, this is my time
This is my space to breathe
This is reality

You make the world a better place
A better place for
A better place for

You make the world a better place
You make the world a better place
You make the world a better place

You make the world a better place

A better place
