Blood red head
Blood red head

No one knows who sent it
Or what it first was called
No one knows what made it
Or when it first was mauled
No one understands why
It burns but never dies
One thing is for sure though
That burning bastard flies

Chorus:

Here comes the burning blood red head on fire
As laser beams shoot from the eyes of the choir
It doesn't need a body, cause it flies through the air
It's a blood red head on fire and it doesn't care

If you think you're bad-ass
And you try to stand your ground
It will look into your eyes and make it's awful sound
Then it will suddenly fly at you
And hit you in the head or chest
And your body will disintegrate
Because the blood red head's the best

Chorus

Razor sharp fangs in a gross mouth
Yellow burning eyes, surprise
Gordy cauliflower ears
And talons growing out of its face
8 feet off the ground
And Moving fast and looking down
The people scatter as the foul death spreads

You may think Duke Lion
Could defeat this awful foe
You may be right
Because they fought about a week ago
The blood red head on fire

Was immune to Duke's fireballs
So Duke Lion gave up and went on a quest
For the ice sword of Gaultry

Chorus
