Your story lends validity to itself  
Scared straight brain wash bullshit maybe it'll sell  
But just who will buy, sorry not I  
All of ??? showed we just might surprise, yeah  
Don't even bore me with crystal's ball  
And in due time they rise and they fall  
When all this urging turned trivial  
Nobody, in all of the world did go  
Can't help but wonder if there's anything madder now  
To me the world seems so much sadder now  
Just stare straight ahead  
False move you're dead  
Over and over this is where I've been fed, yeah  
Don't even bore me with crystal's ball  
And in due time they rise and they fall  
When all this urging turned trivial  
Nobody, in all of the world did go
