Should of known better
You already upset her
Play boa constrictor
Who's the victim?
So buckle down now
Nobody's allowed now
You stupid dream chaser
Memory eraser
An opportunity to discuss these things so new to me,
yeah
We'd like to take this time to defend all you you're oh
so fine
I know you learned it all before in
Newest obsession, worldly possession
What does it matter? Senseless chatter, oh
Here's the elixir, that ought a fix her
Livin in the dream town, now who's the clown?
I'd like to take this time to defend all you you're oh so
fine ??
But you have lost your sense so settle for second best
An opportunity to discuss these things so new to me,
yeah
We'd like to make a toast, on this ?? special roast
Whichever you prefer, you guess that's it, it's all a blur
You're living fast, I'm slow I know
You're living fast, you're slow I know
You're living fast, I'm slow I know (x6)
Living slow, I'm living slow
