10 Million years and nothings changed  
we're still a bunch of monkeys but with beautiful names  
IQ's with culture, art and taste. Assholes and elbows  
and time to waste  
Everybody  
Everybody on the Planet  
Every faggot, nigger, monkey, dyke, redneck,  
wetback, gook, kike,  
skinhead, pothead, deadhead, freak, hippie, junkie,  
computer geek  
This is just like me, just like you.  
Just like Hitler, Michael Jackson too

Everybodyx4

Im a die hard heterosexual, homo-erectus intellectual,  
Got a PhD from M I T, Meal in a Tube, you and me,  
Got to find more stuff, what else is new?  
Got to breathe a lot more O2, Everybody gotta breathe  
the H2O  
Everybody on the planet is a HOMO:  
Erectus  
Protect us  
Infect Us
