This is mine and you can't take it  
You were never in the long term plan  
So if I start to move too quickly  
Will you have the heart to stop me ma'am  
I open my eyes and all I can see is a boy gone red  
I drink too much and I think that it's gone to my head  
See what a head that's big with hairy hands can do  
He's looking at me he stares at us we look right  
through  
It's been my understanding of an ugly situation, please  
Let the night roll with it louder still it's becoming in my  
ears  
I open my eyes and all I can see is a boy gone red  
I drink too much and I think that it's gone to my head  
See what a head that's big with hairy hands can do  
He's looking at me he stares at us we look right  
through  
This is mine and you can't take it  
You were never in the long term plan  
So if I start to move too quickly  
Will you have the heart to stop me ma'am  
I open my eyes and all I can see is a boy gone red  
I drink too much and I think that it's gone to my head  
See what a head that's big with hairy hands can do  
He's looking at me he stares at us we look right  
through
