

Big Drill Car "Robot"

Visit "[Robot](#)" on MotoLyrics.com

This battle has raged for too long,
but we'll soon right what went so wrong,
you see we found a faster feces,
faster morning for the freebees,
kill the bastards want to die?
Use your knif to stab his eye,
they made us mad and they will pay!
Follow me, I know the way...
Down in here there is a key that we hide
to they could not see, it's right in here,
and this is where we'll find our key,
we're almost there,
the key is used to turn a lock that
activates a huge robot,
and this robot will kill them all,
with one huge smash,
we'll watch them fall!
thank you Robot...
