If you want to see the nation,
You can come down to the station,
You can find some isolation,
If you don't try masturbation,
You can have that phat sensation,
When you see a constellation,
You can pay for restoration,
Or make that your occupation,

If you like the situation,
You can take a big vacation,
You can get an education,
Learning in this way...
There's something in the heart of Lord Kali,
Kali lights the children's heads on fire,
And causes disease to spread,
But Kali is our friend,
And Kali is the sweethog...
Mount the sweethog...

If you're Japanese or Haitian,
You'll receive an invitation,
There will be anticipation,
So we must have preparation,
There was such a mutilation,
All the boys were on location,
But they died of perspiration,
Due to mass participation,

If you like the situation,
You can take a big vacation,
You can get an education,
Learning in this way...

There's something in the heart of Lord Kali,
Kali lights the children's heads on fire,
And causes disease to spread,
But Kali is out friend,
And Kali is the sweethog...
Mount the sweethog...
