"Little Wings"

Visit "[Little Wings](#)" on MotoLyrics.com

When your such a little one
And your life has just begun
Its a miracle to me yeah
And now your out in open air
In my heart and everywhere
But your close your eyes and look like you dont care
But im right here to take of you
believe me ill be there for you

chorus

You my baby your my every little thing (every little thing)
Your the wonder of it all (wonder of it all)
Your an angel i can see your little wings
The joy that you bring
You make a change in me
With your little wings
yea
With your little wings

Now i finally put some words
To a song i often heard
In the corner of my mind
Cause i felt this way before
And i circle round the core
But until today i couldnt get it right
Still i know i aint now poet
But its the way i can show it
oohhh

Chorus

You my baby your my every little thing (every little thing)
Your the wonder of it all (wonder of it all)
Your an angel i can see your little wings
The joy that you bring
You make a change in me
With your little wings
yea
With your little wings yeaah uuh
Your little wings yea

with your little wings yea

I just hope that you be happy
because the world message is nothing is for sure

chorus

You my baby your my every little thing (every little thing)

Your the wonder of it all (wonder of it all)

Your an angel i can see your little wings

The joy that you bring

You make a change in me

With your little wings

yea

With your little wings

Now i finally put some words

To a song i often heard

In the corner of my mind

Cause i felt this way before

And i circle round the core

But until today i couldnt get it right

Still i know i aint now poet

But its the way i can show it

oohhh

Chorus

You my baby your my every little thing (every little thing)

Your the wonder of it all (wonder of it all)

Your an angel i can see your little wings

The joy that you bring

You make a change in me

With your little wings

yea

With your little wings yeaah uuh

Your little wings yea

ooh your little wings yea

yeah
