

Bad Acid Trip "Remember"

Visit "[Remember](#)" on MotoLyrics.com

I have seen the result of our school system
I have seen what it does
I asked some kids about the holocaust
And they didn't even know what it was
Didn't that happen in some Time Life books
I didn't see the movie cuz I didn't have time to look
Genocide is the product of every bloody war

And remembrance is a way to begin
But don't be so ignorant as to believe
It can never happen again
Remember!!
I have seen the result of our school system
I have seen what it does
I asked some kids about the holocaust
And they didn't even know what it was
