

## **Bad Acid Trip "Strange Humans"**

Visit "[Strange Humans](#)" on [MotoLyrics.com](https://MotoLyrics.com)

We humans are getting pretty strange  
And maybe we forgot how to use our brains  
Fearing yourself and all those around  
Were all living in a system of a down  
Cant you see you're just like me  
There's no reason to hate  
So lets laugh and have some fun  
Before it's too late  
We humans are getting pretty strange  
And I think we forgot how to use our brains  
Fearing yourself and all those around  
Were all living in a system of a down

I don't think you even know  
Why it is you hate me so  
Spend your life living a lie  
That they provide and you buy  
Weve become trapped in our shells  
Put ourselves through mental hell  
Why do we live this way  
Change ourselves and seize the day  
Cant you see you're just like me  
There's no reason to hate  
So lets laugh and have some fun  
Before it's too late  
Strange Humans
