

## **Big If "Triple Please"**

Visit "[Triple Please](#)" on MotoLyrics.com

Please excuse my convictions.  
If things are different don't be  
Alarmed.  
And when it gets hard to listen  
I'll try and leave out the  
Painful parts.  
You know I've gotta ask you to let go. (I've gotta ask you  
to let go. )

Please, please,  
Please let me out  
We're not what it's about.  
And this is still the only  
Way that I know how to say  
This getting out's not getting out.  
If everything still comes around, I'll come around.

I'll be around.

You're  
Not this year's edition.  
Don't want you thinking I could easily move on.  
Should you wake up without me,  
Know I left you but I'm not gone  
You know I've gotta ask you let go.  
(I've gotta ask you to let go. )  
But I know some things get better as they go.  
(But I know some things get better as  
They go. )

Please, please, please let me out  
We're not what it's about.  
And this is still the only way that I know how to say  
This getting  
Out's not getting out.  
If everything still comes around, I'll come  
Around.

I'll be around.  
I'll come around I'll be around.  
Please, please, please let me out  
We're not what it's about.

And this is still the  
Only way that I know how to say

This getting out's not getting out.  
This getting out's not getting out.  
If everything still comes around, I'll come around.

Please, please, please let  
Me out  
We're not what it's about.  
And this is still the only way that I  
Know how to say

This getting out's not getting out.  
If everything still  
Comes around, I'll come around  
I'll be around.

Please, please, please  
Let me out

We're not what it's about.  
And this is still the only way that I know how to say  
This getting out's not getting out.

If everything still  
Comes around, I'll come around  
If everything still  
Comes around, I'll come around

I'll be around
