Round and round in circles, I couldn't tell you why,  
whenever you swim by, I can't breathe.  
Maybe I'm just drowning and you're swimmin' around.  
I'm down in the coral reef.

Oh, how I wish we were the kissin' kind of fish  
'cause you, you're always on my mind.  
But I feel like a fool waitin' around for you.  
I must just be the sucker kind.

It's somethin' about the way you shine in the light, you  
glow.  
Bright blue and pink in your cheeks.  
I just wanted you to know:  
You're not just another fish in the sea to me.  
You're not just another fish in the sea to me.

Finally got close enough  
to take a taste, took a look  
Saw a hook in a piece of bait

And all at once I was ripped from the sea.  
I'm a fish outta water and I can't breathe.

It's somethin' about the way you shine in the light, you  
glow.  
Bright blue and pink in your cheeks.  
I just wanted you to know:  
You're not just another fish in the sea to me.  
You're not just another fish in the sea to me.

I was deceived,  
all along the pond was catch and release.  
So I'm a goldfish 'cause they've no memory and I won't  
remember you.  
Forgot me.

It's somethin' about the way you go and the light
