Candy
Why, I call my sugar candy
Mmm, I'm sweet on candy
And candy, he's sweet on me

He understands me
Yes, my understandin' candy

Hmm, my candy's always handy
Just when I need sympathy

Oh, I wish that there were four of him
And I could love, love that much more of him
He has taken my complete heart
And I got a sweet tooth for my sweetheart

Candy, candy, candy
He's gonna be just dandy
Hmm, the day that I take my candy
And make him mine, mine, yes
Oh mine, yeah

The day that I take my candy
And make him mine, all mine
