Yes, you loved me and you stole my clothes
I love you but that's the way that it goes
So it goes, guess, you know how I feel
So it goes, you just couldn't be real
And we know it's strong and I don't think it's gonna go
on

When I come home carrying my shoes
I've been waiting to tell you some news
And you won't be home all night
You don't want another fight

But she better love
Find some love
You better love me
It's not [Incomprehensible]

Yes, you loved me and you stole my clothes
I love you baby, that's the way that it goes
So it goes, yes, you know how I feel
So it goes, couldn't be real

And you won't be home all night
You just don't want another fight
But you better love me
Find some love, then love me, baby
It's not [Incomprehensible]
