Once I walked a lonely road
Had no one to share my love
But then you came and showed the way
And now I hope you're here to stay
You give me light
You are my day
You give me life
And that's right
You give me light
You are my day
You give me life
And that's right
So right
So right, so right
Lonely age of uncertainty
They disappear when you're near me
When you're around my life's worthwhile
And now I long to see you smile
You give me light
You are my day
You give me life
And that's right
You give me light
You are my day
You give me life
And that's right
So right
So right, so right
My life is right
My life is right
My life is right
Once I walked a lonely road
Had no one to share my love
But then you came and showed the way
And now I hope you're here to stay
You give me light
You are my day
You give me life
And that's right
You give me light
You are my day
You give me life

And that's right
So right
So right, so right
My life is right
