Leave

Yeah, Finally I realize that I am nothing without you

I was so wrong, forgive me

Ah ah ah ah

My broken heart like a wave

My shaken heart like a wind

My heart vanished like smoke

It can't be removed like a tattoo

I sigh deeply as if a ground is going to cave in

Only dusts are piled up in my mind

(Say goodbye)

Yeah, I thought I wouldn't be able to live even one day
without you

But somehow I managed to live on (longer) than I
thought

You don't answer anything as I cry out "I miss you"

I hope for a vain expectation but now it's useless

What is it about that person next to you, did he make
you cry?

Dear can you even see me, did you forget completely?

I am worried, I feel anxiety because I can't get close
nor try to talk to you

I spend long nights by myself, erasing my thoughts a
thousand times

[Chorus]

Don't look back and leave

Don't find me again and live (on)

Because I have no regrets from loving you, take only
the good memories

I can bear it in some way

I can stand in some way

You should be happy if you are like this

I become dull day by day (eh eh eh eh)

Oh girl I cry, cry

You're my all, say goodbye...

If we pass by each other on the street

Act like you didn't see me and go the way you were
walking to

If you keep thinking about our past memories
I might go look for you secretly

Always be happy with him, (so) I won't ever get a
different mind
Even smallest regret won't be left out ever
Please live well as if I should feel jealous
You should always be like that bright sky, like that white
cloud
Yes, you should always smile like that as if nothing
happened

[Chorus]

I hope your heart feels relieved
Please forget about me and live (on)
Those tears will dry completely
As time passes by
It would've hurt less if we didn't meet at all (mm)
Hope you will bury our promise of being together
forever baby
I pray for you

[Chorus]

Oh girl I cry, cry
You're my all, say goodbye, bye
Oh my love don't lie, lie
You're my heart, say goodbye
