Visit "[Sell Out](#)" on MotoLyrics.com

I know that you're leading me on
Innocence has come in and gone
I found you out

Juvenilia getting you high
All the luck that money can buy
You knock me out
You Sellout

Always first to come
Looking out for number one

Heard you come a knocking before
Now you've got the key to the door
And there's no doubt
You sellout

Always first to come
Looking out for number one
You made it overnight
Gone before the morning light
