If I feel so fine, why should I, be somewhere else,
I've been asking to my self,
If I care when everything's alright,
And I think, that I don't give a shit,
If I'm doing what I like, doing what I like,
Doing what I like,
Doing what I like.

I don't care if I get fired because,
It doesn't matter the way I take,
It'll always be the right one,
I've been asking to myself,
If I care, that you care,
And I think, that you can fuck yourself,
You fuck yourself.

I don't want to hear your speeches that make me feel
confused,
I'm here and I'll be here drinking and smoking my
cigarettes,
People tell me about their experience whit life they say
pain is universal,
A crystal balls are not the answer of what I'm doing,
Doing what I like,
Doing what I like,
What I fucking like.

Bad town, If fear it,
Bad people, living here tonight,
Bad town, you know it,
Bad people, living here tonight,
Bad town, If fear it,
Bad people, living here tonight,
Bad town, you know it,
Bad people, living here tonight,
Living here tonight,
Doing what I like.
