[Buckshot]

Let the games begin...

Buckshot, Da BDI

Tek N Steele, The Cocoa Brovaz

And Aaliyah

Doin it like this

[Aaliyah]

You can ride with me (x6)

[Steele]

Experience this, you and I ridin on a natural mist

Wit me and my gunz, we still # 1, like this

Black Smif-N-Wessun on da top of you list

Mysterious, individual ST doubly a league

Creap on da scene on da double D on da 18 inch

Risin, tryin to get right midnight

Makin moves wit my crewz on dirt bikes

Eyes straight up, keep my head capped up

Linked up wit my Cocoa B'z, cocoa treez

Keep u on a level where we flow on

Like boats in da ocean, like teachin Sean ?

Chorus

[Tek]

Da night is major, read a ? splashin on my pager

Preparin fo our gig in a slowed up ?

wit money makers who hold da tables down in Vegas

Talkin bout da games, the homies sold by from da

Lakers

It's all da same, different faces and names

Da conversation changes, ya hoes run for cream

? quicka and new friends come 'round

But forget where you from, let's get laid down

Super cat of this rap, don't own no plaques

But I'm posin wit Aaliyah for da plastic

And catch da night breeze as we burn down treez

Ridin in da buggy, got 3 to NYC

Chorus

[Buckshot (repeat first 2 lines x2)]
What y'all people here to represent? Boot Camp
What we here to represent? Boot Camp
When you come on down ya see ST
When you come on down ya see Smokey Lah
When you come on down ya see BDB
When you come on down ya see BCC

Buckshot be da # 1 chance, speedin fast
Like Ramadan, plus I blow da amp and da fuse
Buck be da boss, ya lose if ya toss
Must of got tossed at da road
Of course da most popular
When I'm rockin ya, BCC steady knockin ya
Lookin at da box, duece duece
And woofers in my trunk, 4 lights
And likes to get pull lights
And watch me as I dump, one nation baby
Boot Camp and Aaliyah drive ya crazy
Ya wanna see us

[Aaliyah]
You can ride wit me, you can ride wit me
C'mon and ride wit me, ride wit BCC
You can ride wit me, You can ride wit me
C'Mon and ride wit me, you can ride wit me
we ride, we ride, we ride, we ride, we ride

Night riders, ni-night riders, we ride (repeat to fade)
