Don't break the heart that loves you,
Don't let the good times that your way.
Don't break the heart that loves you,
'Cause you're I need this time away.

Don't break the heart that loves you, handle it with care
Don't break the heart that needs you, darlin', please be
fair
Why do you flirt and constantly hurt me
Why do you treat our love so carelessly?
You know I'm jealous of you and yet you seem to try
To go out of your way to be unkind
Sweetheart, I'm begging of you don't break this heart
that loves you
Don't break this heart of mine.
