Words cannot explain how much you mean to me.
I long to hear you say I'll be the one.
Long to hear you say that you will take my hand.
Tell me pretty baby. Can I be your man?
Through many things and time this love has changed.
You broke my heart I feel the burning pain.

Love don't come easy.
Everyday I wake, I hope it won't be long.
Love don't come easy.

Will you be my woman? I will be your man.
Take me in your arms. So girl come back to me.
Don't you know this love could be so real.
When they call your name I feel a burning pain.
Give me all your love and ease my pain.
Behind those tears I cried for you.
Now tell me baby what am I to do?

Promised me the heavens and you gave me hell.
Many dreams I have for you are real.
Took my world and you turn it upside down.
Tell me baby how am I to feel?
You notice I'll come running back to you.
So tell me baby what am I to do?
