[Intro:]

I'll Be Your Lover On The Line [x3]

One Day I see I'll See and let you go away

One Day I think everything is okay

One day I feel that it will hurt no more

One day I know that I have lost you, Lost you

I'll Be your lover on the line

And if I suffer nevermind

I need a lover on the line

We got to heaven over night

I'll be your lover on the line [x2]

One Day I looked into your cold blue eyes

One Day I tried to get away from your lies

One Day I saw you didn't care at all

One Day I knew that I had lost you... Lost you

I'll be your lover on the line

And if I suffer nevermind

I need a lover on the line

We got to heaven over night

I'll be your lover on the line

I need a lover on the line

I'll be your lover on the line

One day I do the things I wanna do

One day I know I wont even think about you

One day I know I'll be free again

One day I know that I have lost you

I'll Be your Lover on the line

And if I suffer Nevermind

I need a lover on the line

We got to heaven over night

I'll be your lover on the line
