Celebration, it's time for you and me  
to celebrate the good times and the bad times  
I've been going through a rocky period with you  
You've been going through a rocky period with me

Misunderstood, you said you didn't feel loved,  
understood nor seen by me no more  
but you should feel the way my heart rate rise  
when I wake up seeing you lying next to me

Affirmation, I love the jokes that you make  
and your eyes and your smile and I always will  
can you imagine how deep I've fallen in love with you?  
I am in love with you

The central station, let's take the next train or the plane  
to Berlin or New York yes I know it's insane  
Do you remember when you said we only live once?  
Let's take the next bus and get married in Las Vegas

Wouldn't that be groovy baby
