Words: L.Lindquist

Music: L.Lindquist

You better watch out cause I like you  
Good things makes me vanish and go  
If I find the common cure for this  
I will also find that I am immune  
You better watch out cause I like you

I drew a sketch on your shoulder  
I tattooed you on your birthday  
You couldn't see what it said  
cause the blood and the bandage covered your arm  
You better watch out cause I like you

I watched you sleeping sound this morning  
You might catch a glimpse of me this night  
Disappeared with the decease I have  
I'm not feeling well so please don't pick up a fight  
I should have watched out cause I like you

I will never learn from this  
and you'll regret all the hugs and kisses  
I will never learn from this  
and you'll regret all the hugs and kisses  
I will never learn from this

The tattoo that I left on you said best before right now  
You should punch me in the stomach  
and then you should hit me in the face  
But you couldn't watch out cause I like you

I will never learn from this  
and you'll regret all the hugs and kisses  
I will never learn from this  
and you'll regret all the hugs and kisses  
I will never learn from this
