I'm too tired to take you to heaven
I'm too busy to wanna make you sweat and moan
If this is all there is then you need some adjustment
If this is all there is then I need some adjustment too

Maybe we could try to do it on the kitchen table
Spice it up like before when we were young able
If this is worth a try then I need to do some stretching
If this is worth a try then you need to do some stretching too

Inner thigh outer thigh upside down and inside out
Would you care for a back massage? I can do a back massage
and while I'm at it I can do your bun your belly and your breast too
and while I'm at it I can do your bun your belly and your breast too

The rest I'm gonna leave to your imagination
I cannot reveal my sex life to the whole nation
To straighten out some question marks
I'm not recovered but I'm on my way
To straighten out some question marks
I'm not recovered but I'm on my way

But oh my goodness it felt so good
Oh my goodness what have I been waiting for?
You're kicking me into the right direction
You're kicking us into the right direction

You're not giving up on me
And I'm so happy as can be 'cause you're not giving up on me
