A clear blue ocean view  
For sale not for lease  
Everyone said it's, a  
Contemporary masterpiece

Malibu, August it was a  
Perfect dream  
Enormous potential the real  
Estate lady screamed

A stunning sunset and  
Movie stars right next door  
Life was finally beautiful  
Entertainment was in store  
(Chorus)

Waterfalls, Jacquzzies, workout  
Rooms and uzies  
But massive pocket doors  
And expensive wooden floors  
Don't make a house a home  
It's just another loan  
So I cry  
Behind the gray walls

Style and sophistication and  
California Grace  
The top of the world it's gated with  
Plenty of space

A girl named Misty and a dog  
The size of a horse  
Possibilities for power it's just  
A matter of force

Unique adobe just like in  
Mexico  
But not a single person walks  
By and says hello
