It cuts every corner of every street  
I see it on the face of everybody I meet  
It comes out of nowhere, it chills to the bone  
When I'm by myself, I'm not alone

I've tried to run, I've tried to hide  
It's seen me laugh and it's seen me cry  
It's always there, wherever I go  
I can't escape your blue shadow  
I can't escape your blue shadow

It's like an ice cold blanket on the bed of my soul  
It's wrapped around my heart and it won't let go  
I never think about you, well, that's a lie  
I can't forget about you, so why even try

I've tried to run, I've tried to hide  
It's seen me laugh and it's seen me cry  
It's always there, wherever I go  
I can't escape your blue shadow  
I can't escape your blue shadow

Your blue shadow  
Your blue shadow  
Your blue shadow  
Your blue shadow
