Don't stop the music
I don't wanna lose her
I just want to stay here tonight
Make ev'rything right

So don't stop the music

Don't go now

'Cause if I lose her
I will surely break down.

So don't stop the music

I don't ever wanna say goodbye

How can I tell her
That I really love her
And though we just met here tonight
It all feels so right
Oh please can't you see
That I need her

Don't stop the music
I don't wanna lose her
So don't stop the music

I don't ever wanna say goodbye.
I'd never thought
That I could hold her
Though many times I tried
I never thought
I would see that look in her eyes

Don't stop the music . . .
