"Loud Music In Cars"

Visit "[Loud Music In Cars](#)" on [MotoLyrics.com](#)

Loud music in cars, loud music in cars
Every day, every place I go, loud music in cars
Everywhere the four winds blow, the window comes
down and the volume goes up
Every time I pull up at the light, I can't hear it at all
Won't you turn it up a little?
So the kind of music you like?

Speakers on the ceiling
Speakers in the door
Speakers in the dashboard
Speakers on the floor
Loud music in cars, loud music in cars
Every day, every place I go, loud music in cars
Everywhere the four winds blow, loud music in cars

Speakers on the ceiling
Speakers in the door
Speakers in the dashboard
Speakers on the floor
The window comes down and the volume goes up
Every time I pull up at the light, I can't hear it at all (Turn
it up)
Won't you turn it up a little 'cause that's the kind of
music you like?
Loud music in cars, loud music in cars
Loud music in cars
Loud music in cars
Loud music in cars
Loud music in cars
