Ralphs

I was brought up in a back street  
Working every night and day  
Fought like a man for everything that I am  
I got the kickdown, yeah.

Well I came back with a vengeance  
Searching for that southern gold  
One of these days I'm gonna blow their minds  
Before the kickdown, yeah.

But we made it together, made it together  
Hell or high water's gonna take me away.

But we made it together, made it together  
Hell or high water's gonna take me away.

Money came in, I bought everything  
Tried to keep it all together  
Hold on tight 'cause in the middle of the night  
You get the kickdown, yeah.

I was brought up in a back street  
Working every night and day  
I fought like a man for everything that I am  
I got the kickdown  
Well I fought like a man for everything that I am  
I got the kickdown, yeah yeah yeah.
