She knocked down my money, she knocked down my
fame
Just wanna feel I'm a part of the game
On the radio, on TV, it's like a heartbeat deep inside of
me

Know what I want, know how to get, it's like the sound
of a hot Corvette
Start it up, let it roll, come on baby, let's lose control

Ooh yeah, I wanna live it up
Ooh yeah, don't wanna give it up, oh no

I wanna rock, the rock of America
Yeah baby, rock the rock of America, ooh yeah

I hear the beat everywhere, small town streets, union
squares
Every city's got that sound, it's in the open, not
underground
Turn it up all the way, you can't escape it, it's here to
stay
Sounds like thunder in my soul, come on babe, let's
lose control

Ooh yeah, I wanna live it up
Ooh yeah, don't wanna give it up now, no no

I wanna rock, the rock of America
Yeah baby, rock the rock of America, ooh yeah

Ooh yeah, I wanna live it up
Ooh yeah, don't wanna give it up now, no

I wanna rock, the rock of America
Yeah rock, the rock of America
An' I've gotta rock, the rock of America
You know what I want, rock the rock of America, yeah
