"Walk Trough Fire"

Visit "[Walk Trough Fire](#)" on MotoLyrics.com

I used to see those red tail lights, heading for another town
And wish that I was on my way
Looking back on these summer nights, wasting time,
fooling 'round
And there was nothing here to make me stay

But that night I met you, the night you came through
made me realise
There's no way I can leave, you made me believe
And now when I look in your eyes

Chorus:

I could walk through fire, I can feel it burning
And I could walk through fire, (to get) right back to you
And as the flames get higher, you know I'll get stronger
Baby I could walk through fire

It's crazy how these things work out, I used to think I
had no chance
And I somehow thought you'd slip away
You pulled me through the fear and doubt, gave me all
I'm looking for
Everything I needed to stay

How could something so good, something so simple,
get serious
How could someone so right come into my life, and
now I just want you to know

chorus

And I would go anywhere, I would do anything, I do
what you want me to
You know that I would, I want you to know this,
whenever you need me
Ooh wherever you are, no matter how far, you know I'll
be coming for you

chorus

Baby I could walk through fire, right back to you
And I could walk through fire, and I could walk through
fire
And I could walk through fire, right back to you, yeah
