I saw you walking with another
You looked so happy by his side
You promised me there'd be no other
Baby-baby how I cried, I cried

You said we'd always be together
You promised me we'd never part
You left me lonely days forever
Left me with a broken heart

I know that I won't find a new love
Someway I-I-I'll get by
But you're the only girl I'll ever think of
Baby-baby how I cried, I cried
Baby-baby how I cried

My life no longer has a meaning
My lonely heart just cries for you
Of you my dear I'm always dreaming
Baby-baby I'm so blue over you

I know that I won't find a new love
Someway I-I-I'll get by
But you're the only girl I'll ever think of
But baby-baby how I cried, I cried
Baby-baby how I cried
