It's the season of the dark horse

The ocean of night

It's the angel of mercy

Leaving you behind

In this moment

You ache for the cure

You're pleading

Save me

Give me some more

There's no shelter tonight

Escape from the pain

There is nothing

No end to this game

You're so wicked

Evil and cruel

It won't save you

Save me

From what I'm gonna do

You're just a number

You're just a victim

A dead man walking

Buried alive
Hold out for a better hand
Wait for better days
You can feel it coming
The fury of my rage
My vengeance
Will rain down on you
There's no mercy
Have mercy
In what I'm gonna do
