You know you make me crazy  
And my mind is racing  
You're wastin' all my time  
Someone come and save me  
Oh, yeah

'Cause when I need you  
I can see through  
And I feel you  
Right now  
All my highway  
Doin' my way  
And I want you to feel  
When I'm going down

Chorus  
I am not affraid  
And I won't go down in fate  
Nothing's gonna be the same  
And everything you know  
Keep inside your soul  
Tonight I'm gonna be John Wayne  
Oh, yeah

Our colder Days are chasin'  
And you're not gonna face it  
The reason's in the rhyme  
You walked on what was sacrid  
Oh, yeah

And when I need you  
I can reach you  
And I feel you  
Right now

It's a new day  
But your skies are grey  
And I want you to feel  
When I'm going down

Chorus  
I am not affraid

And I won't go down in fate  
Nothing's gonna be the same  
And everything you know  
Keep inside your soul  
Tonight I'm gonna be John Wayne

Everything you know  
Keep inside your soul  
Tonight I'm gonna be John Wayne

Chorus:  
I am not affraid  
And I won't go down in fate  
Nothing's gonna be the same  
And everything you know  
Keep inside your soul  
Tonight I'm gonna be John Wayne  
I am not affraid  
And I won't go down in fate  
Nothing's gonna be the same  
And everything you know  
Keep inside your soul  
Tonight I'm gonna be John Wayne
