Written by William M. Joel

Four o'clock in the morning  
Two is on the ground  
Four o'clock in the morning  
Mist is all around  
As the time that I like best  
To walk around about the town  
I rave on to the morning  
For the solid tune I've found

Four o'clock in the morning  
Dig into my mind  
Four o'clock in the morning  
Surprise that war I find  
'Cause I'm walking on the cobblestones  
I feel the world is mine  
I rave on to the morning  
For that little slice of time

Four o'clock in the morning  
four o'clock in the morning  
I can't escape to a world of my own  
Where I...can be alone

Four o'clock in the morning  
Hush, I can't ignore  
Four o'clock in the morning  
Headed out the door  
And I'm stepping out to see a world  
That no one seen before  
And I rave on to the morning  
When the world holds something more

Four o'clock in the morning  
Four o'clock in the morning  
I can't escape to a world of my own  
Where I...can be alone
