Yeah...Yeah...

When I went to town the other night  
To see if I could start a fight  
I felt so mean that I was goin' nuts  
I felt so downright mean  
You see that when some dude bumped into me  
I went in and stuck a pitchfork in his guts

I ain't no hippie common fag  
And I pledge allegiance to the flag  
I don't believe that college kids should vote  
I'm a peace of man, you see  
But if it all agree with me  
I'll have to kick your teeth right down your throat  
All right, kick a little

Well after that I felt just fine  
So I got my woman on the line  
And I told her I was comin' to her place  
And I don't love her anymore  
So when she opened up the door  
I emptied my revolver in her face

I ain't no hippie common fag  
And I pledge allegiance to the flag  
I don't believe that college kids should vote  
I'm a peace of man, you see  
But if it all agree with me  
I'll have to push your face right down your throat  
All right, kick a little

Yeah, thank you, thank you all
