You know it's not enough just to say that you love me  
You know it's not enough just to say you're thinking of  
me  
Show me, show me how you feel and I'll say I know our  
love is real  
Oh, so I think it'd happen just forever, come my way

You know it's not enough just to say that you love me  
You know, huh, it's not enough just to say you're  
thinking of me  
I know that I haven't been wrong to trying to show you  
this old love  
I try to love you, baby, for so long  
Try to love me before I'm gone, sha! Huh!

You know it's not enough, huh, just to say that you love  
me  
You know it's not enough, sha, just to say you're  
thinking of me  
I hope I'm not coming 'round trying to show you this old  
love  
I try to love you, baby, for so long, huh!  
Try to love me before I'm gone, huh! Well, sha!

Show me, show me how you feel and I'll say I know our  
love is real  
Oh, no one, so I think it'd happen just forever, come my  
way
