Have you ever had that dreaan?  
Where you're all alone in the dark and so afraid.  
And then an angel comes to you and says  
Let your heart show you the way.  
It'll lead you to glory every single day,  
Don't stop to wonder why.  
Get up and wipe your eyes.  
I promise, we'll get through this  
You may not have the best toys  
You may not have the coolest clothes  
But deep down you know,  
There are people far worse off  
And If we all helped the world It would be a better place  
For all of us...For all of us=  
Let your heart show you the way.  
It'll lead you to glory every single day,  
Don't stop to wonder why.  
Get up and wipe your eyes.  
I promise, we'll get through this(reapete)
