Well you were having your fun  
Just lying in the sun  
Now you can stand like a man  
But if you're smart enough you're gonna turn and run  
I can feel it in my heart  
They're gonna feed you to the sharks  
Well it's hard to believe  
You're not the only mouth to feed  
And your sense of adventure's gonna fade  
When you see yourself bleed  
I can feel it in my heart  
They're gonna feed you to the sharks

Well take a deep breath  
While you still have one left  
Cause you'll be walking on water  
In the valley of the shadow of death  
And I can feel it in my heart  
They're gonna feed you to the sharks

Well you were having your fun  
Just lying in the sun  
Now you can stand like a man  
But if you're smart enough you're gonna turn and run  
I can feel it in my heart  
They're gonna feed you to the sharks
