(Na na na)  
Eden, yeah  
(Na na na)

Too far gone to turn around  
As I make it into town  
I said, "Driver take my suitcase  
Where's that good time goin' down"

Hit the freeway to the skyline  
Need some faster ecstasy  
If she's got a prize then I've got the money  
She said, "For you the first one's free"

And I thought I saw Jesus in the hotel room  
As we made love on the balcony  
With a drink in my hand  
Like they said it would be, yeah

So this is Eden  
So this is Eden  
And baby I knew it  
That you'd lead me to it  
I don't wanna get out

(Na na na)  
Eden

Feel the pressure rise in the elevator  
Make our way down to the street  
Soul sister sing a song for me  
Drunks and junkies shuffle their feet

It's a three ring circus  
Downtown Babylon  
We're crashin' and burnin'  
For twenty four hours the party goes on, yeah

So this is Eden  
So this is Eden  
And baby I knew it  
That you'd lead me to it

Nobody gets out  
(Na na na)  
Eden

Nobody gets out  
(Na na na)  
Of Eden, no no

Breathe in, breathe out  
Check in, you won't check out

It's a wild weekend  
Ghost train ride to the other side  
It's a funhouse suicide  
It's making me feel more dead than alive, yeah

So this is Eden  
So this is Eden  
And baby I knew it  
That you'd lead me to it

So this is Eden  
So this is Eden  
And baby I knew it  
That you'd lead me to it, yeah

(Na na na)  
Eden

Nobody gets out  
(Na na na)  
Eden, no no no

Na na na  
Na na na

Check in  
You won't check out
