Bad English
"Swallowing Fire"

I been in it for the money
I been in it for the fun
I been in it for too long to want to give it up
I been crashing and burning
Pushing too hard after thrills
I been haunted by a hunger that the pleasure never
kills

Swallowing fire
Swallowing flame -- burning inside

You don't remember where it hit you
You just remember that it aches
Nobody ever knows themselves except by their
mistakes

Swallowing fire
Swallowing flame -- burning inside

But somehow it keeps you running
Out of control and into walls
When you've broken your off switch,
There's no limit to the falls

Now the mornings run together
Now the clock runs out of time
And if I don't kill myself I'm gonna die trying

Swallowing fire
Swallowing flame -- burning inside
I been swallowing fire
I been swallowing flame, burning inside
