There was a time
When we could believe,
The time we wait
Ain't no waste

The young boy can't take it no more

Shoulder by Shoulder
But nobody understands,
The way we behave
Makes no sense

The old men can't take it no more

Don't give away your heart,
I won't leave you behind

Don't give your heart Away,
Don't give your heart Away

Question after question
Goes on forever,
As mankind waits
For an answer

Mankind can't wait forever,
The old men can't take it no more

Don't give away your heart,
I won't leave you behind

Don't give your heart Away,
Don't give your heart Away

[Solo]

Don't give your heart away,
Don't give your heart
