I don't know why
I used to feel you better
and everytime you come back in my bed
don't ask me why you always light my fire
and everytime I just can't get it out

Chorus : I keep on burning
I'm burning
I need you once again
Cause I'm burning

I'm burning
I want you here again..... x2

Take me and make love with me one more time
Baby grab me and ride on me just one more time
Take me and make love with me one more time
Baby grab me and ride on me just one more time
