With the sweet comes the bitter
With the bitterness the pain
With the pain comes the hate
With hate comes the rage, no love remains
[2x]

One by one the smiles all stolen
A bittersweet reminder wrenched off your face
One by one the smiles gone shy
A bittersweet reminder wrenched away

With the sweet comes the bitter
The bitterness the pain
With the pain comes the hate
With hate comes the rage, no love remains
[2x]

Slowly sense of humor creeping over
Leaves a smile untouched

The rage that turned the hatred
Turns the bitterness to sweet
From the rage comes the pain
From the pain comes the hate
From the hate comes the bitter
The bitterness the sweet and love remains

From the sweet comes the bitter
The bitterness the pain
With the pain comes the hate
With the hate comes the rage
With the rage comes the pain
With the pain comes the hate
With the hate comes the bitter
The bitterness the sweet
[2x]
