If you'd seek maybe you'd find  
May not all be wasted time  
May end right back at square one  
But the fool gives in the chance is gone

When there's always a long way home  
And there's always more to come

If you'd seek maybe you'd find  
Try and try might just get by

May get cut back down to size  
But the fool can give up anytime

When there's always a long way home  
When there's always more to come

Are you going to lose it?  
Are you going to waste it?  
Are you going to burn it?  
Are you going to squander it?
